HIGH-POWER FEMTOSECOND LASER

1040 nm / < 150 fs / Up to 20 W / Up to 1 μ J

ALTAIR is a compact fiber laser producing high average power with ultrashort femtosecond pulses (< 160 fs) at high repetition rate (80 MHz standard, others optional) in an ultra-compact and robust format.

ALTAIR provides high stability and excellent beam quality making it ideally suited for multi-photon microscopy applications. The 1 μ m wavelength range offers many benefits for bioimaging including lower scattering, deeper penetration.
